## S U M M A R Y

---

As a highly skilled Full Stack Developer, I bring expertise in both front-end and back-end technologies. With a solid foundation in HTML, CSS, JavaScript, and TailwindCSS, I create visually appealing and responsive web interfaces. Proficient in modern frameworks like React.js and Next.js, I build dynamic and user-friendly applications. My back-end proficiency includes Node.js, Express, MongoDB, and PostgreSQL, enabling me to develop robust and scalable server-side solutions. With a strong command of Git for version control, I excel in collaborative environments. Passionate about crafting attractive landing pages and delivering high-quality web solutions, I am dedicated to driving innovative projects from concept to completion.

## E D U C A T I O N

Janakpur, Nepal

**Higher Secondary Education, Computer Science, 2012**

## T E C H N I C A L   S K I L L S

---

**Frontend :**     HTML, CSS, Javascript, Typescript, Tailwindcss, React.js, Next.js, Nuxt.js, Vue.js

**Backend :**     Node.js, Express.js

**Database :**     MongoDB, Postgresql

**Version Control :** Git

## E X P E R I E N C E

---

Upwork, Freelancer

**FullStack Developer,** Nov 2023 - May 2024

- Designed and implemented responsive web applications using HTML, CSS, JavaScript, and TailwindCSS.
- Developed dynamic and interactive user interfaces with React.js, Nuxt.js and Next.js, enhancing user experience.
- Built robust and scalable server-side applications with Node.js and Express, ensuring efficient data processing and API integration.
- Created visually appealing and functional landing pages that improved user engagement and conversion rates.

## S O F T W A R E   E N G I N E E R I N G   P R O J E C T S

---

**Next Dashboard • Front-End Engineer** • <https://mkey-dashboard.vercel.app>

*Developed a responsive dashboard with Next.js and TailwindCSS, featuring real-time data and secure authentication.*

- Developed a fully functional dashboard page leveraging Next.js for server-side rendering and static site generation, ensuring fast load times and optimal performance.
- Implemented authentication and authorization features to ensure secure access to sensitive data within the dashboard.
- Implemented dynamic routing and data fetching with RESTful APIs.
- Deployed on a cloud platform i.e. vercel for scalability.

**E-Commerce App • Full-Stack Engineer** • <https://lemithila.netlify.app/>

*Developed a comprehensive e-commerce application using Next.js, Node.js, Express.js, Redux Toolkit, and MongoDB.*

- Created a responsive user interface with Next.js and TailwindCSS.
- Developed RESTful APIs with Node.js and Express.js for robust back-end functionality.
- Integrated MongoDB for data storage and retrieval.
- Implemented product listing, cart, and checkout features.

**Animated Home Page • Fronnt-End Engineer** • <https://dhanusha-campus.vercel.appl>

*Designed and developed an engaging animated landing page using React.js and Framer motion*

- Created visually stunning animations using Framer motion for seamless transitions and effects.
- Implemented responsive design principles with CSS for optimal viewing across devices.
